Good Morning,

The North East Penn Section of The American Society of Highway Engineers (ASHE) is currently conducting its annual fund raising program. These funds are used to develop and finance the yearly operation of your local organization. This group consists of Engineers, Surveyors, Contractors, and Suppliers dedicated to the support of the highway industry. Membership is always open to any individual involved with the highway and road/bridge building industry.

Your ASHE North East Penn Section holds monthly meetings from September to May, providing an opportunity for timely, informative discussions on various construction/transportation issues, as well as time to meet with other members. Most meetings are on technical topics, and PDH certificates are often provided. We encourage you to attend and welcome suggestions for presentations for our monthly meetings.

We would like to offer you the opportunity to support your organization and advertise your services to other contractors, industries, suppliers, and consultants throughout Northeastern Pennsylvania and the nation. Annually, we prepare a full-page advertisement, which is placed in four consecutive issues, Winter 2018 to Fall 2018, of the ASHE Scanner, the national ASHE organization's magazine. The Scanner is circulated to over 6,500 members including State Department of Transportation officials and employees, engineering consultants, and other related professionals. The submission deadline for your logo to appear in the Winter 2018 issue of the ASHE Scanner will be August 31, 2017. We also prepare a power point presentation of our sponsors which is shown at our monthly meetings.

By donating \$200.00, you will be recognized nationally as a proud supporter of our chapter.

Please forward your contribution, payable to **ASHE North East Penn Section** to:
